Ribbon Cutting for the Forest Avenue Substation Project

On October 18, 2025, State Rep Kate Hogan joined Justin Connell GM of Hudson Light & Power, as well as Chairman of the Board Justin Provencher and Board Member Joseph Fiorello for a ribbon cutting ceremony for the Forest Ave Substation Project.

Hudson Light & Power has announced the completion of its Forest Avenue Substation upgrade project strengthening the resiliency of the region's electric transmission system against extreme weather while improving the overall reliability and capacity of the electric grid. Locally, the completion of this project increases the overall capacity and resiliency to better serve the ratepayers of Hudson Light and Power well into the future.

Hudson Light & Power works hard to keep the **cost of electricity affordable**. Hudson Light & Power's average 750 kWh monthly bill was about 64% less expensive than investor-owned utilities serving residents in nearby communities. (Source: MMWEC)

Thank you to all that came out to our open
house on October 18, 2025.

Energy New England and Hudson Light & Power Announce New Mobile-Friendly Rebate Portal Launching January 1st

Hudson, MA – November 30, 2025 – Hudson Light & Power Department (HLPD), in partnership with Energy New England (ENE), is announcing the upcoming launch of a new online rebate portal that will make saving on energy-efficient upgrades easier and more convenient for customers. The new portal will go live on January 1, 2026.

Optimized for phones, tablets, and computers, the portal provides a simple way to submit applications and upload receipts in one central place. Customers will also find helpful information on eligibility and documentation to make completing an application quicker and easier.

The portal will be available beginning January 1st at:

hudsonlight.com/rebates

About Energy New England (ENE)

ENE is the largest wholesale risk management and energy trading organization serving the needs of municipal utilities in New England. ENE works with numerous businesses, residents, and utilities to help promote the principles of conservation, efficiency, and environmental stewardship, and advances the many benefits available through integrated sustainability planning – including home energy audit programs, electric vehicle programs, wholesale energy procurement and risk management programs, regulatory and lobbying services.

About Hudson Light & Power Department

Hudson Light & Power Department (HLPD) is a community-owned, not-for-profit municipal electric utility that has proudly served Hudson, Stow, and parts of surrounding communities for over a century. Our mission is to deliver the most reliable electric service in the most economical and environmentally responsible way possible. Known for our high-quality service and commitment to customer satisfaction.
